

## Tahe Marine

One of the largest kayak manufacturers in Northern Europe, Tahe Marine was founded in 1989. Over time both the range and number of kayaks has increased. Product development and production take place on the northern coast of Estonia, using the most advanced technology and best materials available. Tahe Marine's products are marketed primarily in Scandinavia. But each year the market has grown and now Estonian kayaks are known and appreciated in many other countries around the world.

Tahe Marine is a strong and reliable company that does not compromise on a single detail. Many years of experience and operation means quality and loyal customers for whom we can create new and innovative products with care and dedication.

Best kayaks produced in Estonia

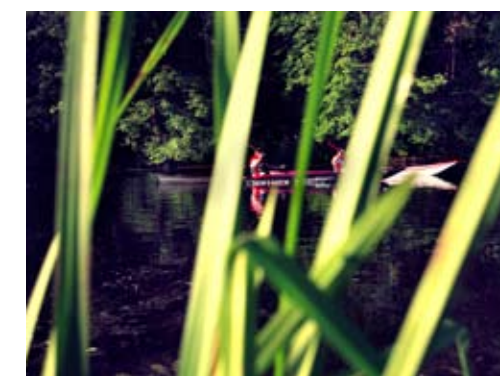

## Designs that will change the realm of water

The designer of our new kayak models, Johan Wirsén, has designed numerous kayaks over the years, both for himself and for leading brands around the world. Paying the highest attention to the smallest details, the visual energy and applied functionality of his work is truly unique. He holds the power to transform the realm of water. The focus for his creativity is always on you, the person who is sitting in the kayak surrounded by the all-powerful water. As he starts on a new design concept, Johan Wirsén believes the most important thing to do is to ask the right questions. How can we perfect the shape of the hull? Would we reach the destination faster and easier if the shape was changed just a little? What will be the needs of the paddlers who will be using this specific model? For whom are we creating this kayak?

The new products of Tahe Marine are prime examples of how to create beautiful, stylish, top quality kayaks. Harmonious design is all about finding the right balance within the cumulative effect of opposing energies. Since the beginning of time people have aspired to shape the forces of nature. With new functional designs Tahe Marine has skilfully developed this primeval aspiration in the world of water sports.

Find yourself the best kayak from the best selection of kayaks. Start by asking yourself the right questions. That is the secret to choosing the right kayak.

# Take a moment...

Enjoy the spirit of Tahe Kayaks.

## Johan Wirsén – the world famous kayak designer

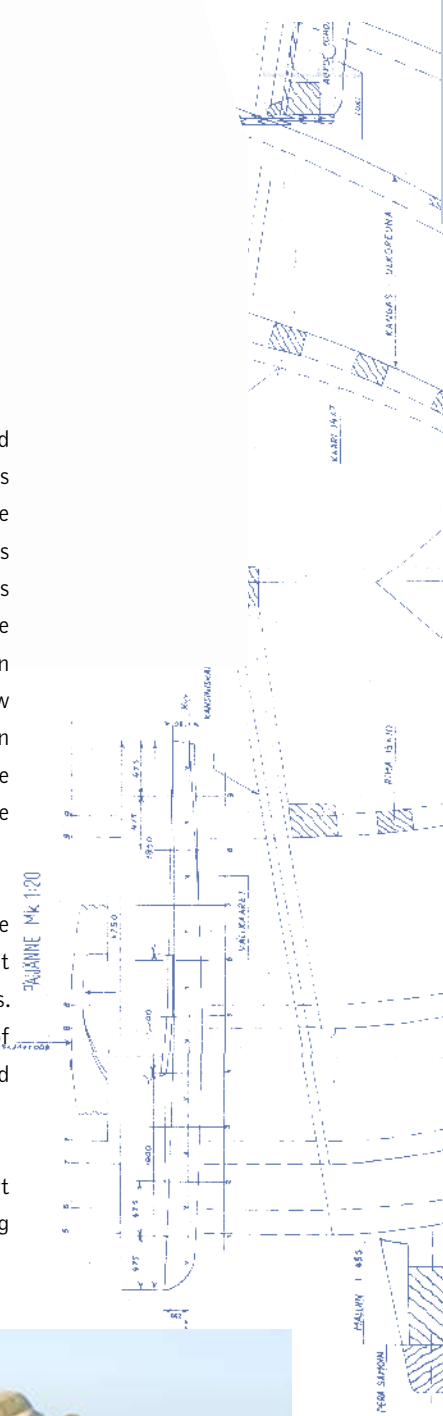

LET ME INTRODUCE MYSELF TO YOU!

I am Johan Wirsén a Swedish boat builder and kayak designer. Over the years I have designed and developed a large number of kayaks and small boats. What began as a hobby and a fascination with kayaks has evolved in recent years into my fulltime job. Today I can look back on my work with pride, and marvel at the extent to which boats created by Wirsén have attracted attention and received a great deal of praise in trials and professional literature.

WHY DO I WANT TO WORK FOR TAHE KAYAKS?

The first time Tahe built one of my kayaks was in 2003. I was impressed. Their craftsmanship was exceptional. That is why it is wonderful to be back designing kayaks now especially for Tahe. One might think that there is nothing difficult about building a kayak. Actually, this is far from the truth. To produce a kayak that meets the most demanding expectations, you need skilful workers and people with knowledge of materials and quality. Tahe Kayaks is capable of raising the bar each season!

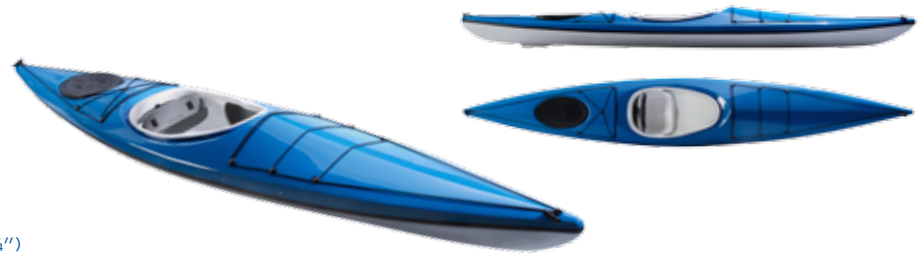

Johan Wirsén

# SPIRIT

As its name suggests, the Spirit is a kayak that creates a feeling of being at peace with nature itself. This series of models uncompromisingly meets all expectations of every paddler. These safe and stable boats are perfect for beginners, but they can also bring joy to even an experienced kayaker. A short stint on a fast-flowing river, a weekend bonfire on a secluded beach, or an activity filled vacation exploring beautiful sea islets - these are the sort of experiences that the Spirit has waiting for you. The Spirit series is the perfect choice for those who seek the undisturbed tranquility of nature, and also for those who appreciate a quality product that comes at an affordable price.

# REVAL

Our Reval series is a family of full-blooded seafaring kayaks. The Reval's design elements attest to one thing: Here is the kayak of choice for those who want peace of mind when they find themselves out there at the mercy of the waves. The Reval's streamlined "banana shaped" hull with a noticeably lower back is a fantastically stylish sight to behold. But it is not only about good looks. The Reval is an ideal choice for adrenaline seekers, as these kayaks have wonderful stability and navigability even in breaking waves and strong winds. The dry storage compartments of various sizes, an appealing selection of colors, and an optional full carbon hull, guarantee that our Reval series will become your beloved companion for all of your open water adventures.

## Reval R-line

The R-line is anything but ordinary. Its distinctiveness is apparent in its unique shape and in its imaginative color solutions with creative patterns. This is an exclusive vessel for the trend-conscious kayaker, combining impressive new styling with the time-tested reliability of the Reval series hull. There is nothing else like it.

# WIND

The models of the Wind series exhibit the charms of Nordic design inspired by the invisible force of the wind over the water and by the mirror-like tranquility of inland lakes on windless days. This innovative, fast, and stable cruising family has the appearance of a sports kayak. Yet in essence it is first and foremost a wonderful sea touring kayak. See for yourself, with spacious dry storage compartments, a stable and low V-shaped hull, and with a comfortable footrest and professional steering system that is one of the best on the market. What could be better?

## Wind W-line

Carefully chosen patterns and smooth flowing lines give the exclusive W-line model a unique stylish appearance. As the crown jewel in the Wind series, this kayak is perfect for those who want to experience something more. Simply put, our W-line is the coolest lifestyle kayak afloat today. This is where the proven functionality of the Wind series meets up with some super slick new styling.

Special color for Wind W-line:

Silver – RAL 9006

# ARGO

The Argo series is a nice touring kayak for people who need a stable and stylish kayak built for two paddlers. Its versatile selection of colors and user friendly design has won the hearts of many, especially on longer sea expeditions. The selection of models includes the Argo-LC with a larger cockpit, and the Argo Mini, a smaller tandem kayak that is known for its stability and maneuvering capabilities in tight coastal conditions.

The Argo family also has a Maxi model with extra volume and a convenient spot to carry your four legged friend in its middle storage space. The Argo Maxi Expedition was created with true touring fanatics in mind. Its dry storage compartments are large enough to pack all the gear you will need on even the longest sea journeys and it also has a place on deck to mount a compass or GPS. If you are interested in a simple, beautiful and reliable tandem kayak, then the Argo is without a doubt the right choice for you.
